

Comprehensive Learning Management

ACE LMS™ is a streamlined and comprehensive Learning Management System (LMS) designed to meet the rigorous security and compliance demands of the life sciences industry, ensuring your team stays compliant, well-trained, and audit-ready. With ACE LMS™, organizations can easily assign, track, and manage training programs. The system is built for flexibility, enabling role-based training assignments, real-time reporting, and seamless integration with existing systems. Whether it's training for new employees, maintaining ongoing compliance, or meeting specific regulatory needs, ACE LMS™ provides an intuitive, comprehensive platform for all your learning management needs. By leveraging advanced analytics and user-friendly dashboards, ACE LMS™ simplifies training management, empowering you to monitor progress and compliance in real-time.

Key Features

Role-Based Training Assignments

Assign training automatically based on employee roles and responsibilities. This feature ensures that each team member receives the appropriate training for their role, reducing manual effort and ensuring consistent accuracy across the organization.

Version Control for Training Materials

Keep your training materials up to date with version control. When documents like SOPs or policies are updated, ACE LMS™ automatically triggers retraining assignments, ensuring your team always has the latest information.

Audit-Ready Documentation

ACE LMS™ generates time-stamped audit trails for all training completions, providing easy access to accurate records that are ready for regulatory audits and inspections.

Seamless Integration with ACE Docs®

Leverage the power of ACE Docs® by pulling documents directly into ACE LMS™. This integrated solution streamlines your document approval and training needs. ACE LMS™ also integrates with your existing enterprise systems, including document management, HR, and compliance tools, creating a streamlined and unified training environment.

Curriculum Management

Easily organize and manage training programs as structured curriculums. Create comprehensive learning paths that combine multiple courses, ensuring employees receive all the necessary training for their role and career progression.

Configurable Notifications and Alerts

Keep your team on track with fully customizable notifications and alerts. Set up automated reminders for upcoming or overdue training, ensuring employees stay informed and up to date on their required learning activities.

Real-Time Reporting and Analytics

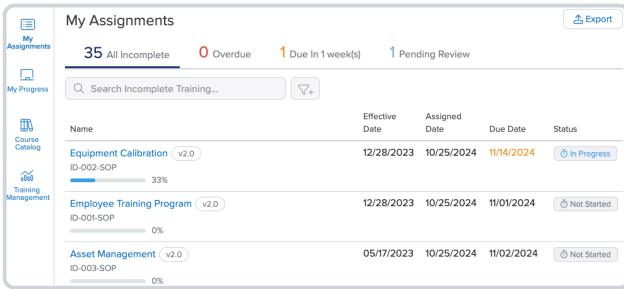

Track training progress and compliance in real-time with powerful reports and dashboards. Stay on top of completion rates, overdue assignments, and employee training histories to make informed decisions that improve your organization's training program.

Self-Service Learning Portal

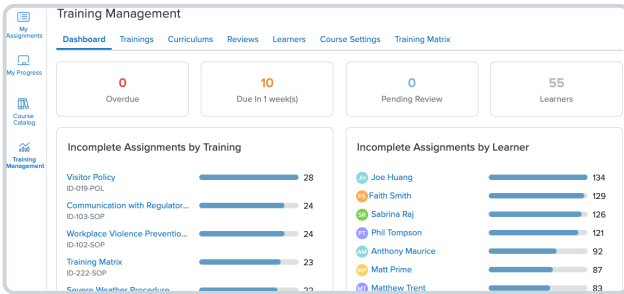

Distinguish between required and optional training. With the self-service portal, users can browse available optional courses, enroll in optional training, and track their progress—all from an easy-to-use interface.

Feature Preview

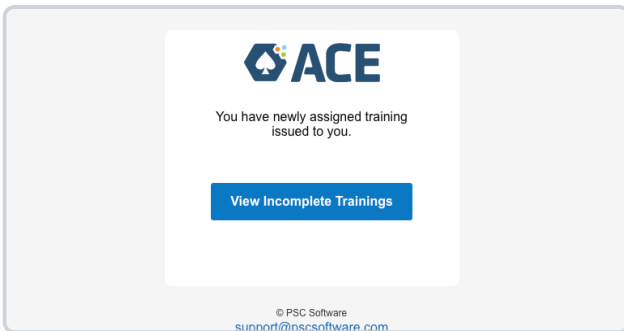

Training Assignments

The My Assignments allows a user to easily keep track of their training and ensure they complete all training on time.

Training Management

ACE LMS™ enables trainers to monitor the progress of multiple learners simultaneously, with interactive dashboards that provide, detailed insights for streamlined tracking.

Real-time Notifications

Keep learners and trainers instantly informed and ensure everyone stays on track and engaged, with alerts on current training for users and trainers.
